PERSONAL VS PARTY NORMATIONS FOR THE PRESIDENCY.—Of the candidates in the field for the next Presidency, only two represent living party organizations. Mr. Douglas stands at the head of a vagged and broken column; Mr. Bell was nominated by a convention of fessil Whigs and broken down Knew Nothing politicians; Sam Houston's army is of the Palstaffian order, and so on through the list, up to Breckinridge and Lincoln, both of whom are backed by powerful party organizations, and have a certain amount of definite support. That Lincoln will carry the bulk of the electoral vote North is beyond personal representatives of cliques, and have no strength beyond the support or their immediate friends. Choose, then, between Breckinridge and Lincoln.—N. J. Havald.

Underson Carress.—The New York Tribune of Saturday contains a list of over fifty murders committed in that city within a little more than three years, which remain undiscovered crimes. The perpetrators of these murders have escaped detection, or if they are known, as it is believed in some lastances they are, the influence of friends, or the insignificance of their

wood on the sorth of the prelimition of a long-cherished and carnest desire.

One military and six companies of Wide Awakes were parading the ground. Drama were rolling, basels playing, and thousands shouting as though freedom's battles were to be fought again, and the people had come to the fought again, and the people had come to the reacus. Wheever was at that meeting may castly get rid of all doubts as to who will be the next President. When only three (her-toforre atrong. Dismocratic counties) can assomptish such an astionishing rectory for Republicanism, we can expect a success in which there is not even a possibility of heing disappointed.

Hanty Case of Scott County, Republican candidate for Congress, commenced the speaking, and from what I know, I can tell the "Greeian crater" that his empty declamation and "quivering tail" talk will offer but little resis-

cian orater" that his empty declamation and "quivering tail" talk will offer but little resistance to the uncompromising logic of Mr. Case. His speech met with excellent effect.

In the meantime Judge l'almet caused the plank on the front of the platform to be removed, preparatory to introducing Mr. Lovejoy. The sudge then told the andience that he desired weary one to here a fair view of the speaker from head to foot; that misrepresentation had induced many to believe that Lovejoy, instead of being a man, was a frightful monster, equipped with seven heads and ten horas, with which to gore and worry the peace of community. He therefore presented Mr. Lovejoy amid the wildest enthusians. Simultaneous with a general reals by the crieved to get near the speaker, the thousands pressed in a solid mass on all sides of the platform, and awaited in eager silence for the first tones of the orator. They were not silent long—the startling eloquence—sparkling wit, and winning appearance of the orator filled the andience with freepressible delight. Tearstrictled in the furrows of miny a stardy face, where the heart was for the first lime touched with the subliment of political truths.

It was a great occasion—thousands were there for good or bad impressions—in a meetion of construct where miner constraints had done of construct where miner presentation had done

its work will. Surrounded by such a "cloud of witnesses," it was a publime night to see a lone man waging specessful war against the ac-cumulated prejudices of years. Lovejoy was great as the occasion—adequate to the work be-fore him. No prejudice could live long in the presence and harling of such truths. As the orator rose with his theme, many a

lonary, chimerical, and whouly impracticable system of internal improvement.

To carry on this gigantic system and provide the money so lavishey appropriated, the issue of State. Internal improvement Bonds, was su-horized, and that financial policy imagurated that in a few years reduced our State to absolute bankruptor, destroyed our greatli shome and abroad, and imposed upon us a large and juridensome indebtedness, for which we have more received any valuable consideration, the entire system of internal Improvements, upon which these appropriations were expended, having proved as utter and complete failure.

In 1841, it became necessary for the Legislature to provide (rude smileton) to pay its interest open the cipit which had been as any salvy created; and for this purpose an Act was passed and approved Fab. 3841, 1841, which provided, that, "The Governor shall, from time to time, "lauss such as assent of State bonds as my

"payment of interest on the State debt, that there is an other means of paying, and also sufficient to redeem all State bonds now hypothecated."

"The bonds shall be sold by the Fund Commissioner for the best price they will commissioner for the best price they will commissioner for the best price they will commissioner for the foregring objects."

In accordance with the requirements of the law the Governor, in May following, issued \$800,000 of "Internal Improvement" bonds, and delivered them to the Fund Commissioner Gen. Whitesides, for sale. When the Fund Commissioner arrived in New York for the purpose of negotiating the bonds, he found the highest price they would command was about 40 cents on the dollar. In view of the szisting large indebtedness of the State, a sale of the bonds at so great a sacrifice was deemed too ruinous to be tolerated, and after stricing with the Governor, members of Congress from this State, and many of the leading business men, the Fund Commissioner decided to make an effort to borrow the money for the payment of the July internation the State debt upon a pledge, as security, of the bonds in his hands, hoping that the increases in the value of our securities, and the longer time given him for their protest, and the longer time given him for their protest, and the longer time given him for their protest, and the longer time given him for their protest, and the longer time given him for their protest, and the longer time given him for their protest, and the longer time given him for their protest, and the longer time given him for their protest, and the longer time given him for their protest, and the longer time given him for their protest, and the longer time given him for their protest, and the longer time given him for their protest, and the longer time given him for their protest.

in a specified time.

ANOUNT OF LIQUIDATION NOTES TO SE INSURD.

The first point in the law to be examined in the second provision, in our classification, which figs the amount of liquidation, bonds to be insued. The language of this provision is as follows:

ACCOUNT TO BE FILED AND EWORN TO.

ACCOUNT TO BE FILED AND EVORN TO.

The fifth prevision of the law requires Macalister and Stebbins to file an account verified by affidayit, setting forth the amounts due the holders of the hypothecated bonds, other than themselves; and that the (Kovernor should publish a socioe calling upon such holders to appear within aix months and either secopt or disprove the accounts thus rendered by Macalister and Stebbins.

This prevision of the law did not in any way change the liability of the State upon the ant standing bonds. The amountation be paid by the State upon sech surreindered bond being the same, whether by the affidayif of Macalister and Stebbins there appeared to be more or less due to the other helders, than the pre-rais sum recognized by the law.

The pre-raise liability of the State as we have already abours, was 3551 250 on each \$1000 of the hypothecated bonds or sertp, on the latter of Assurer 1830.

If Macalister and Surbins should certify in their seconas that a holder other than themselves had paid for a \$1000 hypothecated bond only \$200, and that this sum was the amount due to twee the bonds without legarit to the holders for the bonds without legarit to the second that the results the second that the part of the second that the second the second that the second that the second the second that the second that the second that the second the second that the second the second that the second that the second that the second the second that the second th the new bonds; but more and keep possession of his boad, then Macalister and Stebbias could not receive the \$551.25 without a direct volution of the pro refer section of the law, revisition of the pro refer section of the law, revisiting an actual surrender of hid bends in the section of the section of the section of the law, revisiting an actual surrender of hid bends in the

Had these requirements of the law been complied with, no loss could have occurred to the State, and no idustice would have been done to her creditors; but by a reference to the settlement made with Macalister and Steebjins in 1850, we find hat there was reserved for the liquidation of the \$175,000 of outstanding bonds, in the hands ofthe non-assenting ereditors, only \$46,184,31; inseed of \$105,467.79, the amount actually due from the State thereon, and the difference of \$9,299.65 was issued, to Macalister and Steebis in liquidating bonds, and for this amount say never surrendered a single bond or liability of the State of any kind whatsoever.

Logan had promised to estisfy the people of Frankin county in regard to his actice on the Polygump bill, but thought best not to toutfit that in his speech. However, the people will that in his speech. However, the people will had him to a strict secount for his conduct, and in November next will show Mr. Logan that there are seen in this community who are not willing to continuous such conduct in their Representative.

Mr. Logan's cisiented gentleman of Gallatin county, is Logan's opposent. A man of fine abilities, he will make alsuming invessed upon the hitheric hig majority of the shivery propagadiats in this District.

THE GENET BYANGERS.—The Pomercy, Ohio, Triagraph anys:

From every part of this county we are in almost daily receipt of names of subscribers to the Triagraph with the announcement that they have heretofore acted with the Democratic party, but can set with it no longer. A gentleman of perfect reliability, from Orange township laforms us of sixteen of his neighbors, including hisself, in Orange and Bedford, who have within the last two weeks severed their old party ties and declared their purpose to vote the Republican ticket. He thinks there will be many more who will pursue the same independent course. We know of more than twenty in Pomercy who have taken the same honorable step, and are informed that there are regular accessions to the German Republican Club in this place.

INPLEAR COMMENSIONAL NOMERCHOM.—The Evanville Journal believes that a complete anti-Democratic Congressional Delegation will be elected from Indians. We hope so.
